Y2 Computing N2K – Creating Media – Digital Paintings Autumn 2

Concepts

Information Technology

Use technology purposefully to create, organise, store, manipulate and retrieve digital content.

Digital Literacy

Recognise common uses of information technology beyond school. Use technology safely, respectfully and responsibly.

Key Skills

I can recognise what devices can be used to take photographs.

Explain the effect of lighting on a photograph.

Use filters to change the appearance of a photograph.

Decide which photographs to keep.

Enquiry Questions

Should I take a photograph portrait or landscaped?

What makes a good photograph?

Does lighting affect my photograph?

Key Vocabulary

Photograph – a picture made using a camera.

Portrait – mainly capturing people's faces. The picture is longer to capture emotion.

Landscape – capturing environments. The picture is wider to capture landscapes.

Edit – make changes to the picture.

Composition – how the scene is arranged when taking a picture.

Lighting – a light source, nature or manmade that lights up the scene.
