Y5 Computing N2K – Creating Media – Video Production Autumn 2

Concepts

Information Technology

Use technology purposefully to create, organise, store, manipulate and retrieve digital content.

Digital Literacy

Recognise common uses of information technology beyond school. Use technology safely, respectfully and responsibly.

Key Skills

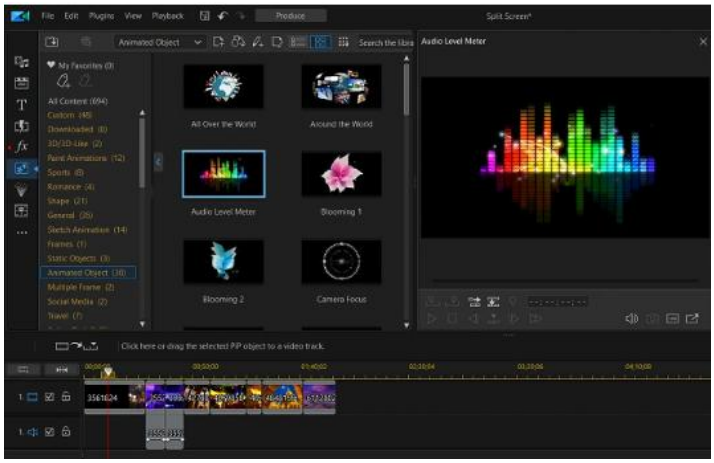

- Identify and find features on a digital video recording device.
- Capture video using a range of filming techniques.
- Select the correct tools to make edits to my video.
- Recognise that my choices when making a video will impact on the quality of the final outcome.

Enquiry Questions

What makes a video effective?

What techniques are there when recording a video?

What is reshooting and editing?

Key Vocabulary

Input – Data that is sent to a program to be processed.

Run – To action the commands in a program.

Edit – Make changes to content.

Camera Angle – The placement of the camera when recording.

Storyboard – A set of drawings that are used to plan what needs recording.

Scene – A video recording.
