

Y1 Computing N2K – Technology Around Us

Spring 1

Concepts

Information Technology

Use technology purposefully to create, organise, store, manipulate and retrieve digital content.

Key Skills

- Explain technology as something that helps us.
- Locate examples of technology in the classroom.
- Identify rules to keep us safe and healthy when we are using technology in and beyond the home.

Enquiry Questions

Can you identify any different technology?

What are the main parts of a computer?

How does a keyboard work?

Key Vocabulary

Technology – The use of scientific knowledge for practical purposes.

Mouse – A small device that a computer user pushes across a desk surface in order to point to a place on a display screen.

Computer – An electronic device for storing and processing data.

Keyboard – A device that allows a person to enter letters, numbers, and other symbols.
