

# Action Plan 2025-2026

## Eco-Schools Topic: Water

**Aim:** To understand water is our most important natural resource and the need to value and preserve its usage.

### Action(s):

Survey classes to investigate the use of water, water bottle counts, loose change bottles, water day to raise awareness for other countries in need of water. '2 presses' challenge in toilets when washing hands. Sharing water saving tips and ideas in newsletters. More water butts around school.

### How long will it take?

July 2026

### Who is responsible?

Eco Warriors, H, McGrath

### How we will monitor progress:

Photographs, pupil voice, graphs and charts

### Evaluation:

## Eco-Schools Topic: Litter

**Aim:** To understand the importance of reducing litter, which harms wildlife and costs millions to clear every year.

### Action(s):

Litter picking, assemblies, newsletter info, Taking part in 'The great big school clean'

### How long will it take?

July 2026

### Who is responsible?

Eco Warriors and H. McGrath

### How we will monitor progress:

Weighing litter bags, litter counts, community support. Newsletters, assembly, letters to parents, councillors.

Photographs.

### Evaluation:

## Eco-Schools Topic: Global citizenship

**Aim:** Taking an active role in our community and make our environment more peaceful, sustainable and fair.

### Action(s):

To hold an eco café selling fair trade tea, coffee and chocolate. To hold an assembly to explain the importance of fairly traded goods on poorer countries and on our own farming communities. Promote the need for buying fairly trade goods through assemblies and notes in the newsletters.

### How long will it take?

July 2025

### Who is responsible?

HMc, eco warriors, School governors and SLT

### How we will monitor progress:

Photographs of assembly, café and evidence of newsletter information. Money braised for charity and reported back via newsletters.

### Evaluation:
